

RE : RECOMMENDATION FOR MUGARURA KEVIN BYARUGABA

This is in reference to your request for a recommendation for the above name person. Kevin has been known to me for 6 years of high school education. I have been his school counsellor for the said period of time.

Throughout his stay at the school, Kevin has been humble and obedient. He has a good record of academic performance in both ordinary and advanced levels of education. He has participated in various co-curricular activities like: basketball, essay writing that awarded him a one-week scholarship of Yale university to attend Yale Young African Scholars in Kenya Thika and also participated in oysters and pearls innovation competition in Gulu, where he was awarded a gold medal as a winner. Kevin is a hardworking, emotionally intelligent, inquisitive, innovative, confident, assertive and has good leadership skills. He has participated in student leadership at the school. He was a class representative in his grade 8 and an Anti AIDS club president.

Given his academic performance, leadership skills and creativity, I write to highly recommend Kevin for admission he has applied to your university. I am certain that Kevin will exhibit academic excellence and also innovate and elevate the reputation and standard of your university.

Let me also highlight that Kevin has studied at a reputable government school that has produced current serving presidents in the East African region namely Rwanda and Uganda. The school has also produced ministers, members of parliament and other highly ranking officers. I am proudly recommending Kevin and state that Kevin has a good character with positive thinking

Yours faithfully

Daphne Ngabirano

Counsellor
